DETAILED ACTION

Drawings

1. The drawings were received on August 08, 2007. These drawings are acceptable.

Claim Objections

2. Claim 23 is objected to because of the following informalities: in claim 23, line 3, the word "tangent" is misspelled. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims s 43-44 and 53-54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 2 of both claims 43 and 44, is the term "a plurality of regenerative factors" difference than "a plurality of regeneration factors" recited in the precedent claim 40?

The preamble of both claims 53 and 54 recites "a method for performing channel estimation," however, without the channel estimation recited in the body of the claims, the method recited in both claims fails to achieve the goal of performing the channel estimation.

Line 4 of both claims 53 and 54 recites a step of “determining a cutoff frequency based on an expected Doppler frequency associated with a first user,” however, claims 53 and 54 are vague and indefinite without knowing what to do with the other users.

Allowable Subject Matter

5. Claims 1-6, 8-18, 20-22, 24-33, 35-42, and 46-52 are allowed.
6. Claim 23 would be allowable if rewritten or amended to overcome the objection set forth in this Office action.
7. Claims 43-44 and 53-54 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
